RENO, NEVADA

Orime Cycles.

London St. James Gazette. What looks like an epidemic of picidal mania seems to have lately token out in the United States. In all parts of the Republic "men and women," it is stated, "are blowing out the little brains' they possess and cutting their worthless throats in the most reckless manner." Their fate most reckless manner." Their fate does not appear to cause general commiseration. The compensating circumstances about this rage of self-destruction is, observes one of the American papers, that it rids the world of a number of people who, if they did not kill themselves, would probably kill somebody else, and that they make business lively for the undertakers and coroners. It is almost impossible to account for this destructive tendency that occurs every once tive tendency that occurs every once in a while. The speculative writers and philosophers endeavor to account for it in various ways, and they talk learnedly and eloquently about "crime learnedly and eloquently about "crime cycles," and more or less other sentimental rubbish, all of which is very good as a theory. The fact of the matter is that there are a great many more crazy people in the world than the world imagines. When a great popular excitement, such as the late attempted assassination of the President corner these week minded creations. dent comes, these weak-minded crea tures jump off the first wharf, tie themselves to the first rope they see, or point to their heads the first old rusty pistol they come across.

Consumption of Paper.

It is estimated that nearly 2,000,000-000 pounds of paper is produced aunually, one-half of which is used for printing, a sixth for writing, and the remainder is coarse paper for packing and other purposes. The United States alone produces 200,000 tons of paper yearly, averaging seventeen pounds yearly, averaging seventeen pounds per head for its population. The Englishman comes next, with about twelve pounds per head; the educated German takes about eight pounds, the Frenchman seven pounds, while the Italian, Spaniard and Russians take, respectively, three pounds, one and a half pounds and one pound annually, the consumption of paper being rough-ly in proportion to the education and intellectual and political activity of the people.

Not Always the Printer's Fault. Chamber's Journal.

Chamber's Journal.

Careless writing, with imperfectly formed letters, and a general appearance of dash and haste, is as frequently the cause of blunders as the stupidity of the printer. It may have been due to some such cause that a person who advertised for a gardener, adding the information that there was 'no glass"-that is, no green-househad the worry of seeing this as "one glass," naturally attended with inquiries from interested applicants wishing to know "if it was in the forenoon," and whether it was "hot." Again, a lady who was desirous of semaid sent an advertise curing a housemaid sent an advertise-ment to that effect to the local paper; but the notice when it appeared tified the lady by representing nting her as advertising for a horseman. There is a rollicking sorg by a certain Scottish professor, in which he says: "I can like a hundred women, I can love a score." But a compositor, who put this in type, changed the last word in-to "scone," thus dividing the learned poet's love and likings between the Court of Venus and the baker.

DUST TO DUST.

The telegraph last evening conveyed to us the sad news of the death of Gen. C. C. Batterman, at Tombstone, Arizons. The message says he died suddenly of heart disease, but gives no further particulars. Gen. Batterman was for aixteen years one of Nevada's most prominent and respected citizens. He was a candidate for Governor twice before the Republican State Convention. For several years he was Super-Curry and other mines on the Com-stock. He was elected in 1877 Warden of the Nevada State Prison, and reelected in 1879. He made a most tin. excellent Warden, making the Prison what it never was before, a model of discipline and neatness. He was sppointed last June Superintendent of the Head-Center mine at Tombstone. Arizona. Gen. Batterman was one of the few who truly enjoyed the enviable reputation of being strictly honest and trustworthy in all the walks of life, and for a man who was so well known throughout the State, but few knew of his many noble qualities. He was as modest as a child, and kindhearted and generous almost to a fault. No one who knew him as intimately as the writer could but love and admire his many noble qualities. He leaves a wife, one daughter (Mrs R. H. Lindsay) and one son, C. S. Batterman, and scores of warm personal friends to mourn his loss. He will be missed by many. We deeply sympathize with the bereaved family; but words at such a time are idle, empty, and void of comfort.

THE BOSS STEAL.

On Friday last we published an interview with Mark McDonald, had by a special reporter of the GAZETTE, between Winnemucca and this place. over in the sum of \$500 to await the The S.F. Daily Exchange of yesterday action of the Grand Jury, in default published the words of Mr McDonald of which he was sent to jail. His in the interview as an original editorial. This original effort was telegraphed to Virginia, and appeared in the Chronicle last night as a special telegram. six teamsters, with aix horses each is teamsters, with six horses each, thirty-six animals in all, unhooked for the night in the creek; about 9 o'clock a cloud burst to the north and a volume of water ten feet high came down stream carrying everything before it. The dispatch and interview are printed elsewhere for comparison. The Gazette will be mailed regularly to the Comstock. The Enterprise would also have published the steal, but for a crowd of clippings from medical works and almanacs.

EDITORIAL NOTES.

The Chronicle says: The Appeal is getting up a subscription for the benefit of Cook of Cincinnati, who was fined \$35 for assaulting a man who remarked that he hoped the President would die. The swelling total is now thirty-one cents, and has not yet been forwarded to Ohio. Squads of suspicious subscribers dog the Appeal editor's footsteps, and swear there shall be no surreptitious beer-bibbling on their money.

Hon. Mark L. McDonald was passenger on the overland west last the future is brighter for the coast, but New York is the place for business. It is not very easy to get peo-ple to invest there, but when they do take hold of anything they never quit. There are oceans of money there, and all a body needs to do is to convince them that he is honest and that he has a paying proposition, and he can get all the money he wants. He says Nevada and California have been below par there for a long time on acof political disturbances etc but they are growing into favor. He has been a year in the east, and in that time has made arrangements with parties to place the bonds to build a railroad from Benicia to Santa Rosa, Cal. It will be 50 miles long, and run through a fine country with no other road in sight. It will bring Sonoma county into di-rect connection with tide water, and give her a market place for her im-mense crops of wheat and fruit and for her fine lumber product. Benicia is destined to become the great grain center of California. Over 100 ships have loaded there for foreign parts have wharves and elevators to handle any quantity of grain. The line runs near the redwoods, the finest body of timber in the world. It is estimated to contain four hundred and fortyseven billion feet of lumber. It would take a hundred saw mills three hun dred years to cut out such a body of dred years to cut out such a body of timber. Some of the trees are 60 feet in circumference, and 250 feet to a limb. Ledlie, who built the Nevada Central, is Chief Engineer. The name of the road is the Santa Rosa and Sonoma Central. In regard to Nevada's railroad system, there is a good deal of interest manifested in the east. Jay Gould is moving to get a complete system across the conti-nent. His Wabash road carries him from Detroit and Toledo or Lake Erie to Council Bluffs and Kansas City on the Missouri. Then he has the Union Pacific to Ogden, or the Atchison. Gould is not in Union Pacific now much if any. Vanderbilt has the largest interest there, and is pushing the line to Oregon. The Wabash and Texas systems are taking Gould's attention. When his system gets to Utah he will either move on to California, or join some of the other lines. Mr. McDonald

The Union Pacific has bought the Nevada Central, and it will doubtless be extended, but with what purpose they have not told. There is sure to be one or two more roads through soon. Mr. McDonald says he has no idea of making his home in the east. If he goes there it will be to make money, and then come to California to live

How Warden Garrard is Utilizing the

Warden Garrard keeps fifty men employed in the shoe shop. They manufacture about \$2,000 worth of boots and shoes per month. He finds no difficulty in selling all he can manufacture. He says the shops are not making any money, but he does not think he is losing anything.

The stone quarry men are busy getting out stone for the new Refinery now being constructed by the Mint authorities.

John Combs, the Ormsby county cattle thief, is crazy. He has not eated anything for twelve days.

James Burke, a refractory brute from Storey county, undertook the other day to run the institution after his own liking, finding fault with his breakfast, refusing to work and asking the other convicts to join him in an attempt to take the prison; but after being hauled up by the wrists and floated through the air for a few minutes he concluded he didn't want spring chicken for breakfast. He went back to work, thoroughly convinced that he was not the Warden. Warden Garrard only has 126 men

to look after at the present time.

" Black-Leg."

There seems to be good grounds for apprehension that this dreaded disease may become general in this region. Since mention was cade of the matter in the GAZETTE's columns, further confirmatory reports have been received from Eastern Nevada. In addition to what has already been said it may be mentioned that cattle have died recently of black-leg in the vicinity of Bear Mountain, Calaveras county, Cal., and parties who have come from Warner Valley, Oregon, report that young cattle are dying on the range in that section by the hundreds from what they believe to be black-'eg. The rumor was at first contradicted, but has since been authenticated. The south shore of the lake is strewn with carcasses of young cattle. It is very important that every means should be adopted to exclude diseased cattle from this region. Stock men should be very careful in their

says that "Walter Bray, for thirty years a popular negro minstrel, is a helpless lunatic in a Massachusetts asylum. His right name is Baker. and he is a son of the General Baker who was killed at the battle of Ball's Bluft."

This moves the reminiscent crank in Alf Doten's well-stored brain, and he remarks:

"All old Comstockers remember evening. Walter Bray just as well as they do Max Walter's old Music Hall, at the north end of Virginia; also, Otto Burbank. Further Notes From the New Discov ery Near Palisade.

A Eureka Leader correspondent has the following news from the mining discovery near Palisade, mention of which was first made in the GAZETTE ast week: "The new mining camp which has set every one almost crazy in our quiet town and almost left the shops and business houses to take care of themselves, is flourishing. Mr. B. C. Safford was the discoverer. As soon as the news reached town there was a grand rush for claims, springs, mill sites, town sites, etc. The miners met on the ground and organized a district and named it "Safford," elected Judge W. S. Marchant Recorder, and appointed a committee to draw up laws, regulations, etc. The Onondaga was the first mine discovered from which assays have been made at Virginia City, Battle Mountain, Lewis District, Eureka, Bullion, Salt Lake City as follows: Virginia City, \$253 95; Salt Lake City, \$327 16; Battle Mountain, \$126 75; Battle Mountain, \$135 40; Bullion Dist., \$235.76; Lewis District, \$344.80; D. J. OHarra, of San Francisco, Lewis District, \$115.23; Eureka, 108; former resident of Reno, is at the also from the Gold Luck, assayed at Eureka, \$206.77, and I hear equally favorable reports from others, but Arizona, last evening to join his have not the figures at hand to give correctly. Two town sites have been laid out. The one at the mines is NEW AND SEASONABLE STOCK JUST UNPACKED, named Cayuga, and one at the railby Geo. O. Brieter and R. Howland for \$50,000, and the opinion of those qualified to know is that it will be a
